COMPUTATION AND ELEMENTARY ALGEBRA PRETEST 5 September 2012 10. Which property of real numbers is demonstrated by the following statement? 3 2 5 2 5 3

COMPUTATION AND ELEMENTARY ALGEBRA PRETEST

Algebra (from Arabic "al-jabr", literally meaning "reunion of broken parts") is one of the broad parts of mathematics, together with number theory, geometry and analysis. In its most general form, algebra is the study of mathematical symbols and the rules for manipulating these symbols; it is a unifying thread of almost all of mathematics. It includes everything from elementary equation solving ...

Traditionally, these courses have covered the theoretical

Abstract Algebra Theory and Applications

Chapter 1 LINEAR EQUATIONS 1.1 Introduction to linear equations A linear equation in n unknowns $x_1,$
 x_2, \dots, x_n is an equation of the form $a_1x_1 + a_2x_2 + \dots + a_nx_n = b$, where a_1, a_2, \dots, a_n, b are given real
numbers. For example, with x and y instead of x_1 and x_2 , the linear equation $2x + 3y = 6$ describes the line
passing through the points $(3, 0)$ and $(0, 2)$.
