The (object) part in parentheses specifies the parent class that you are inheriting from (more on this below.) In Python 3 this is no longer necessary because it is the implicit default. Instance Attributes. All classes create objects, and all objects contain characteristics called attributes (referred to as properties in the opening paragraph).

A work of art in the visual arts is a physical two- or three- dimensional object that is professionally determined or otherwise considered to fulfill a primarily independent aesthetic function. A singular art object is often seen in the context of a larger art movement or artistic era, such as: a genre, aesthetic convention, culture, or regional-national distinction.

Immanuel Kant (1724â€“1804) is the central figure in modern philosophy. He synthesized early modern rationalism and empiricism, set the terms for much of nineteenth and twentieth century philosophy, and continues to exercise a significant influence today in metaphysics, epistemology, ethics, political philosophy, aesthetics, and other fields.
