

oil painting portraits pdf

Oil painting is the process of painting with pigments with a medium of drying oil as the binder. Commonly used drying oils include linseed oil, poppy seed oil, walnut oil, and safflower oil. The choice of oil imparts a range of properties to the oil paint, such as the amount of yellowing or drying time. Certain differences, depending on the oil, are also visible in the sheen of the paints.

Oil painting - Wikipedia

In November 1882 Van Gogh began drawings of individuals to depict a range of character types from the working class. The "peasant genre" that greatly influenced Van Gogh began in the 1840s with the works of Jean-François Millet, Jules Breton, and others. In 1885 Van Gogh described the painting of peasants as the most essential contribution to modern art.
