Social technology a way of using human, intellectual and digital resources in order to influence social processes. For example, to ease social procedures via social software and social hardware, which might include the use of computers and information technology for governmental procedures, etc. It has historically referred to two meanings: as a term related to social engineering, a meaning ...

According to the Free software movement's leader, Richard Stallman, the main difference is that by choosing one term over the other (i.e. either "open source" or "free software") one lets others know about what one's goals are: "Open source is a development methodology; free software is a social movement." Nevertheless, there is significant overlap between open source software and free software.
