

### **origins how the planets pdf**

There are a number of planets or moons whose existence is not supported by scientific evidence, but are proposed by various astrologers, pseudoscientists, conspiracy theorists, or certain religious groups.

### **Planetary objects proposed in religion, astrology, ufology**

Isaac Newton (4 January 1643 – 31 March 1727) was considered an insightful and erudite theologian by his contemporaries. He wrote many works that would now be classified as occult studies and religious tracts dealing with the literal interpretation of the Bible.. Newton's conception of the physical world provided a stable model of the natural world that would reinforce stability and harmony ...
