Physical Security Professional (PSP)

Computer security, cybersecurity or information technology security (IT security) is the protection of computer

systems from theft or damage to their hardware, software or electronic data, as well as from disruption or misdirection of the services they provide.. The field is growing in importance due to increasing reliance on computer systems, the Internet and wireless networks such as ...

Computer security - Wikipedia

BIOS Security. In 2011 the National Institute of Standard and Technology (NIST) released a draft of special publication 800-155. This document provides a more detailed description than the Trusted Platform Module (TPM) PC client specification for content that should be measured in the BIOS to provide an adequate Static Root of Trust for Measurement (SRTM).

Web browsers have become much more secure and hardened against attack over the years. Google even offers cash prizes to people that report security holes. The big browser security problem these days is browser plugins. I don't mean the extensions that you install in your browser " I mean those ...

Browser Plugins - One of the Biggest Security Problems on

Food Security Communications Toolkit 144 What should a policy brief do? A policy brief should: Provide enough background for the reader to understand the problem. Convince the reader that the problem must be addressed urgently. Provide information about alternatives (in an objective brief). Provide evidence to support one alternative (in an advocacy brief).

More reporting formats .3 Writing effectively

The updated and expanded edition of this popular, 162-page guide includes nearly 30 pages of new material, including cover crop suggestions for common rotations, up-and-coming cover crop species, effects on yields, climate considerations, and more.
