project management agile scrum pdf

The ScrumMaster is not the manager of the Team members, nor are they a project manager, team lead, or team representative. Instead, the ScrumMaster serves the Team; he or she helps to remove impediments, protects the Team from outside interference, and helps the Team to adopt modern development practices.

A Lightweight Guide to the Theory and Practice of Scrum

Scrum Roles. There are only three Scrum roles: the Product Owner, the Team, and the ScrumMaster. All management responsibilities in a project are divided among these three roles. The Product Owner is responsible for representing the interests of everyone with a stake in the project and its resulting system.
