Updating the database of the Illinois Compiled Statutes (ILCS) is an ongoing process. Recent laws may not yet be included in the ILCS database, but they are found on this site as Public Acts soon after they become law. For information concerning the relationship between statutes and Public Acts, refer to the Guide.

Illinois Public Utilities Act (220/ILCS 5/13)

Transmitting smart meters are a public health threat. View Take Back Your Power, a powerful eye-opening movie which summarizes the security, privacy, and health problems related to smart meters. It also provides an eye-opening look at the tactics used against ordinary citizens in order to force smart meters on them.

A smart meter is an electronic device that records consumption of electric energy and communicates the information to the electricity supplier for monitoring and billing. Smart meters typically record energy hourly or more frequently, and report at least daily. Smart meters enable two-way communication between the meter and the central system.

Recreational Water State of the Industry Report

It was not until the invention of the electric telegraph in 1835 that the modern age of weather forecasting began. Before that, the fastest that distant weather reports could travel was around 100 miles per day (160 km/d), but was more typically 40-75 miles per day (60-120 km/day) (whether by land or by sea).
