Rheem SP20170B Comb Gas Control - NG - Intelli-Vent

Heater Selection & Sizing Determining the Size of your Duct Heater. A one KW heater will produce 3,413 BTU's per hour. If you know the CFM of your air handler and the temperature rise needed, you can use the chart below to approximate the KiloWatt rating of the duct heater needed for your application.

Bel Thermal Units - Technical Data - Selection & Sizing

Free downloadable copies of installation and service manuals for heating, heat pump, and air conditioning equipment - hard to find manuals for older or discontinued air conditioners, furnaces, heat pumps, boilers, Links to free copies of Lennox Equipment Installation, Service, & Owners Manuals for Lennox furnaces, Lennox heat pumps, Lennox Air Conditioners.

Installation and service manuals for heating, heat pump

If the new valve is basically the same model as the old one, you don't need to pay a plumber to replace the evil valve. You can open up both the old and replacement valve, and just swap the fronts of the valves, containing the recalcitrant circuit board, leaving the back part that connects to the gas pipes in place. This does require one special tool, pictured at left.

Resetting the #\$\$@!!* Honeywell Gas Valve on a Water

How much a heat pump should cost. Average costs and comments from CostHelper's team of professional journalists and community of users. Installing a small through-the-wall or window unit air-source heat pump to cool and heat a single room costs about \$500-\$2,000.

Cost of a Heat Pump - Estimates and Prices Paid

AC Evaporator Coil Inspection. The following is a photo of my central air conditioner evaporator coils before cleaning. The AC coils look very clean already because I service my system regularly.

How to Clean AC Evaporator Coils - Foaming Coil Cleaner

It seems that every house I've ever owned has needed a new furnace. I mean sure, the old furnace was still there clunking along and producing heat, but it was always some embarrassingly old thing installed by someone that obviously didn't care about energy efficiency (or it predated the ...

How to Replace Your Own Furnace

If you want to save energy, there are lots of exciting appliances and building materials that you might want to specify for your home: triple-glazed windows, an efficient refrigerator, and compact fluorescent or LED lighting, for example.
