Water (H₂O) is a polar inorganic compound that is at room temperature a tasteless and odorless liquid, nearly colorless with a hint of blue. This simplest hydrogen chalcogenide is by far the most studied chemical compound and is described as the "universal solvent" for its ability to dissolve many substances. This allows it to be the "solvent of life". It is the only common substance to exist ...

Water - Wikipedia

The water molecule is an asymmetric top, that is, it has three independent moments of inertia. Rotation about the 2-fold symmetry axis is illustrated at the left. Because of the low symmetry of the molecule, a large number of transitions can be observed in the far infrared region of the spectrum. Measurements of microwave spectra have provided a very precise value for the O-H bond length, 95 ...

Electromagnetic absorption by water - Wikipedia

Health Trim is a metabolism booster built from natural ingredients such as green tea extract and Hoodia Gordonii. The company claims that the product "works to support your body's metabolism while providing a natural boost in energy." This is likely true, but there is not much research connecting Health Trim to sustained weight loss, which makes us reluctant to endorse it as a fat loss ...
