Medical transcription, also known as MT, is an allied health profession dealing with the process of transcribing voice-recorded medical reports that are dictated by physicians, nurses and other healthcare practitioners. Medical reports can be voice files, notes taken during a lecture, or other spoken material. These are dictated over the phone or uploaded digitally via the Internet or through ...

### **Medical transcription - Wikipedia**

Transcription in the linguistic sense is the systematic representation of language in written form. The source can either be utterances (speech or sign language) or preexisting text in another writing system.. Transcription should not be confused with translation, which means representing the meaning of a source language text in a target language (e.g. Los Angeles into City of Angels) or with ...
