Devolved School Management Guidelines A summarised report based on the considerations and outputs of the national DSM Steering Group (2012)

Devolved School Management Guidelines

In psychology, decision-making (also spelled decision making and decisionmaking) is regarded as the cognitive process resulting in the selection of a belief or a course of action among several alternative possibilities. Every decision-making process produces a final choice, which may or may not prompt action.. Decision-making is the process of identifying and choosing alternatives based on the ...
