Approach within 200 yards of a Southern Resident killer whale. Position a vessel to be in the path of a Southern Resident whale at any point located within 400 yards of the whale. Fail to disengage the transmission of a vessel that is within 200 yards of a Southern Resident killer whale. Feed a Southern Resident killer whale.

### **Killer Whale | NOAA Fisheries**

By 1989, these efforts to photo-identify killer whales in different parts of the coast led to the discovery of a completely different population of BC killer whales – the Offshores. 1990s: In 1990, Michael Bigg passed away at the age of 50 from leukemia.

### **History - BC Killer Whales**

Orcas may have earned the common name of “killer whale” as a translation of previous labels “whale killers” or “killers of whales”, labels which were given because Orcas prey on other whales, even the largest baleen whales.
