Red tide is a common name for algae blooms, which are large concentrations of aquatic microorganisms (protozoans or unicellular algae such as dinoflagellates and diatoms). The upwelling of nutrients from the sea floor, often following massive storms, provides for the algae and triggers bloom events. Harmful algal blooms can occur worldwide, and natural cycles can vary regionally.

Dean Stockwell, Actor: Quantum Leap. Photogenic American child actor of the 1940s, popular due in no small measure to his air of innocence and his beautiful, cherubic face with its dimples and his sparkling eyes, topped with a crown of curls. Still an actor in demand while well into his middle years, he is one of the few juvenile performers to succeed lifelong in films.
